

The Therapeutic Power of Acupuncture and Massage

Acupuncture and massage as methods of health care and disease prevention are over 3,000 years old.

These natural healing arts help remove blockages that prevent the body from functioning at peak performance.

Acupuncture, massage, and other forms of body therapy are regaining popularity. More people realize that, rather than waiting until they are sick, they need to be proactive in their health care.

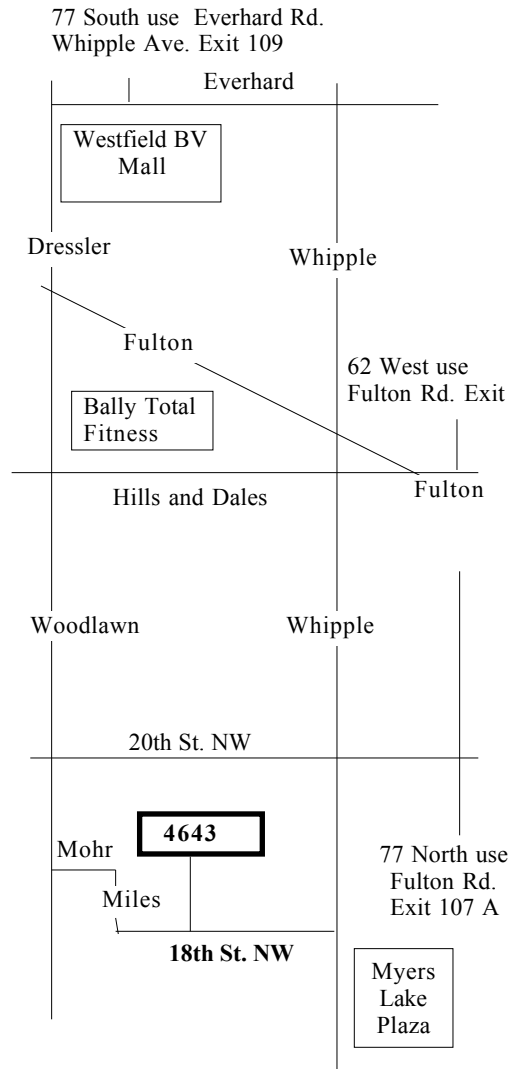

These safe and effective modalities fill the need for both prevention and noninvasive treatment of stress, injuries, chronic diseases and pain management. They are free from drug side effects and drug interactions.

There is extensive modern scientific research on the positive benefits of these natural treatments.

These systems of care have a positive effect on virtually every level of one's mind, body and spirit.

Welcome

Thank you for choosing **Vahila Acupuncture and Massage Therapy**. Please take a moment to read this brochure and use the suggestions to prepare for your first session. For more information, visit our web site at www.cantonacupuncture.com

Getting the Most From Your Therapy

Please be prompt for your appointment. It's better to be a little early than to miss part of your treatment.

Also, bring your completed case history form to your first session. We'll review it prior to your treatment.

Our purpose as therapists is to help you achieve your health goals. Consider the benefits of massage and/or acupuncture most important to you.

- Stress reduction
- Chronic or acute pain & disease
- Injury rehabilitation
- Peak athletic performance
- Wellness support

Your Comfort is Important

Your feedback during your treatment is valuable to us. We encourage you to express your needs regarding room environment (temperature, music, light, etc.) or our treatment (amount of pressure, type of lubricant, draping, sensitivity of acupuncture points, etc.) at any time.

Non-needle treatments are available for those who prefer to not have needles but still want the benefits of Traditional Chinese Medicine (TCM). There are many techniques that achieve the same results as acupuncture without using needles. Ask about alternatives.

About Us

As a husband and wife team, we each bring different skills to our office.

In his first career of 20 years, **Michael** taught music at Malone College, the University of Akron and Mount Union College. In 1991 he began a shift to a career in the healing arts. He is a National Board Certified Acupuncturist, Licensed Massage Therapist and a Traditional Reiki Master. He has been teaching massage therapy at Stark State College since 1999 and offers advanced seminars in Auricular Therapy.

Marcia began her career as a Cosmetologist, managing salons in Ohio and Florida. In 1989 she expanded her skills to include massage therapy. She has trained in many approaches to body therapy including face massage, Reflexology, aroma therapy, Reiki and spa therapies. From 1995 to 2000 she was an Esthetician/Massage therapist at Glenmoor Country Club. She has been teaching massage at The National Institute of Massotherapy since 1994. She also teaches massage at Stark State College.
